

Elemental Love

by Eric Curts

In the light of the **Ag** moon
With the stars and **Hg** above,
I **Pb** you to a quiet place
And told you of my love.

I drew a breath of **O**
And smiled brave and bold.
With my **Ne** the ground below
I offered a ring of **Au**.

With just a **Ni** to my name
You said "Yes" thereupon.
I kissed you on your **Cu** lips.
Now my lonely days **Ar**.
