## **How to play :**

1. Please interview three students about their “favourite” extra value meals. To mark down their answer in Chinese and English.
2. The teacher will choose a questionnaire randomly. If one of the students can repeat orally all the other students' choices. All of the four students ( one interviewer and three interviewees ) will get the prize!
3. Pay attention that everyone's choice must be different.
4. For the “FINAL BIG PRIZE”, if anyone can write down the other student's questionnaire answer in Chinese. He or she will get it!
