

COPYRIGHT TRANSFER AGREEMENT AND PUBLISHING ETHICAL STATEMENT

International Journal of Innovation and Techno Policy (IJITP) applies the following publication ethics standards for all submitted manuscripts:

1. **Authorship of the paper:** Authorship should be limited to individuals who have made significant academic contributions to the conception, design, execution, analysis, or interpretation of the reported study. Individuals who contributed to certain substantive aspects of the research but do not qualify as authors should be acknowledged appropriately.
2. **Originality and plagiarism:** Authors must ensure that submitted manuscripts are entirely original works. Any use of the work, ideas, figures, or words of others must be properly cited and acknowledged. Plagiarism in any form is considered unethical and unacceptable.
3. **Multiple, redundant or concurrent publication:** Authors should not submit the same manuscript simultaneously to more than one journal or publication platform. Manuscripts submitted to IJITP must not have been previously published or be under consideration elsewhere.
4. **Acknowledgment of sources:** Proper acknowledgment of the work of others must always be provided. All relevant publications, references, and supporting sources that influenced the research should be appropriately cited.
5. **Disclosure and conflicts of interest:** Authors must disclose any financial support, institutional affiliation, or other relationships that may create potential conflicts of interest related to the submitted work.
6. **Fundamental errors in published works:** If authors discover significant errors or inaccuracies in their published work, they are obligated to promptly notify the Editorial Board and cooperate in correcting or retracting the publication when necessary.
7. **Reporting standards:** Authors should present accurate research findings and objective discussion supported by appropriate methods, evidence, and references.
8. **Hazards and human or animal subjects:** Research involving human participants, confidential data, or sensitive information should comply with applicable ethical standards and institutional regulations. Ethical approval and informed consent should be clearly stated where relevant.
9. **Use of patient images or case details:** The use of generative artificial intelligence (AI) tools is permitted only for language enhancement or editorial assistance. Authors remain fully responsible for the originality, integrity, and accuracy of the manuscript content and must disclose the use of such tools appropriately.

International Journal of Innovation and Techno Policy (IJITP) requires a formal written agreement from the author(s) for each article accepted for publication. Authors are requested to complete and return this form while retaining a copy for their records. Delay in returning this agreement may result in delays in publication.

Article Title:

1. I/we have read and agree to the terms and conditions of this agreement and hereby confirm the transfer of publication rights relating to the above-mentioned manuscript to the International Journal of Innovation and Techno Policy (IJITP), effective from the date stated below. I/we acknowledge that the journal relies on this agreement in publishing the manuscript. This agreement becomes null and void if the manuscript is not published in IJITP.
2. I/we confirm that the manuscript contains no unlawful statements, does not infringe upon the rights of others, and that all copyrighted materials used in the manuscript have been properly acknowledged or permission has been obtained where necessary.
3. I/we further confirm that the submitted manuscript is an original work and has not been previously published elsewhere. If at any time the manuscript is found to contain plagiarism or ethical misconduct, I/we are willing to accept the appropriate academic and legal consequences.
