

SL: for Ray

Hey Ray,

Have you ever wanted more students in and sent to a competition to win or to be an experience of their life?

And If they apply the philosophy that you teach to use in their life. It would be a wonderful scene for you as an instructor.

If you want, I have 2 ideas to have more students in your dojo.

1. Write new details of your location on Instagram so people interested will join you. also, you can offer a special discount for new followers who book through Instagram.
2. Book a free trial class.

No doubt, this is your missing piece. Hit reply to unlock your dojo's student growth potential.

Best Regards,

Tharathon
