

Basil

Basil is well-known for his little bleps and silliness. He is extremely snuggly towards his humans and will sit on your shoulder, purring for hours if he gets the chance. He is always ready to greet you with little mews and can often have a full dialog with you in goofy mews. He loves attention from his people but can also spend hours with his mouse toy while letting out the cutest, possessive growls.

Tarragon

Tarragon is the most adventurous and curious kitten in her Kitten Academy class. She spends her time getting to know new spaces and makes sure she's at the forefront of every exploration effort! She loves to nurse on faux fur or sherpa blankets and will talk to you in little chirps. She is also the most vocal in her class and loves to narrate her activities with trills.

Parsley

Parsley lives up to her nickname, Purrley. She will instantly purr for you when you pick her up. Sometimes, you just have to look at her and she will start purring. She always greets you with sweet mews and is an absolute delight to have around. She likes to snuggle in your lap as much as possible. She has always been the smallest in her class of Sprigs and proves that the sweetest and most affectionate cutes come in small packages.

Cilantro

Cilantro is floof. Cilantro is silly. Cilantro is. A Kitten Academy favorite on the very first day of class, Cilantro will fill your life with infinite goofiness. If you've been away for a little while, she will greet you with an adorable mew and she loves to cuddle in your lap. She is always ready for adventure and exploration, loves getting brushed and is a great nap partner.

Chamomile

Chamomile is the most beautiful floofy kitten you've ever seen. We know this. However, she's also an absolute purr-machine and is loyally affectionate to her people. She starts out shy with new people but quickly comes around to sniff and explore. Once she gets used to her humans, she greets them with mews and endless purrs. She has the softest fur and loves to play with mouse toys.
