

# Mmd model credits:

- I'm making a google doc for all my model crediting needs in my newer content (2024 and onwards) because It's much easier to edit and link this document and easier for me to figure out where I got what T-T
- Please note none of these will ever be up for download because I only know the bare minimum for editing in PMX and make model edits for fun.

All parts were found and used from Devianart UNLESS IT LITERALLY SAYS It was from a different website which I would share by the part!!

- Some of these models never see the light of day but I put their credits here anyways, these are only ever seen/used in MMD.
- PS: all model edits from my videos in 2023 and prior, literally lost because I got a new pc so those are lost to time. Also all my newer videos have **FULL credits since coming back**, the older videos have scuffed credits because my younger self was lazy and I apologize!!
