

What are the side effects?

00:07 These vaccines work by teaching our immune system how to recognize and

00:11 fight the virus that causes COVID-19

00:13 so because of that there are some expected side effects

00:17 that actually are a sign that your immune system is working

00:20 such as a sore arm or a short-lived fever.

00:23 We do know that these side effects are expected and short-lived

00:27 while infection with COVID-19 can be long lasting and serious
