

Art Portfolio Two Pre-Project Outline & Project Plan

Please indicate your brief

Project Brief

I will redesign the interiors and furnishings of the social spaces at the Curve theatre, including a Mezzanine area, Green Room Café, and Stage Door Bar, in Leicester City Centre.

Please outline your initial ideas and intended outcomes for the project brief you have and explain how you will fulfil the brief's requirements. Make sure you cover each aspect of the brief.

I am going to redesign the coffee chair and table and counters for Green Room Café to make it look more outstanding but keep the simplicity and historical factors of Curve theatre. For Mezzanine area, I would like to add some benches to create relaxing space for seating area. For Stage Door Bar, I will redesign the bar table sets to make the space feel neater and enhance the traffic flow. Because when the theatre has performances, a large number of guests attend, so I would like to improve the traffic flow by rearranging the interiors to generate the space clearly and theatregoers can easily access the functions inside the Curve theatre.

First, I need to do primary research by visiting and discovering the existing space and then estimating the size of the spaces that I asked to redesign. After that, I will sketch out my ideas and apply them to the actual size. Then, I will do second research by exploring history, culture, and spatial layout of Curve theatre. Moreover, I also research about the concept, colors, materials and complete it by generating 2D and 3D images by Sketchup and Autocad.

This is your project plan and timescale - based on the block study
Please complete the summary with good detail at the end of each block BEFORE assessment.
