

Email 4.

Photography niche. Trying to make the subject line link to the photos they take(astrology). Please let me know if you have any other suggestions.

SL: Let's explore the stars...

It's time to take your business to the stars

Look at your business through your lens.

Hey there <name>.

I am sending you a quick email today regarding some business that will benefit both of us.

The photo of the milky way above Corn du. The snow and the stars make it such a pretty photo. The quality and effort you put into your videos are greatly appreciated and valued in your comment sections.

I came across your Youtube and website and saw some potential for great amounts of growth through marketing.

Marketing but it is key to a good business. Therefore, I'm offering you today to let me work with your marketing for 30 days free of charge. If you aren't happy with the services we can go our separate ways, however if you are pleased we can move forward onto bigger and better things.

If you want to hear more about this please let me know, I'll send over some more details on what I'll be doing the next 30 days.

I hope you see the possible value gain here and take this opportunity on board.

Look forward to hearing from you, Brody.
