

St. Joseph's College for Women (Autonomous) Visakhapatnam

Internal Quality Assurance Cell

GUEST LECTURE / INVITED RESOURCE TALK

Department: Computer Science	Date : 24 th JULY to 27 th JULY,2023
Class/ Target audience	III B.Sc (MPCS,MEC,MSTCS)
Name, Designation and Professional Details of the Resource Person:	
K Harish, New thoughts solutions	

TOPIC: DATA SCIENCE & CLOUD COMPUTING

Synopsis of the Resource Talk

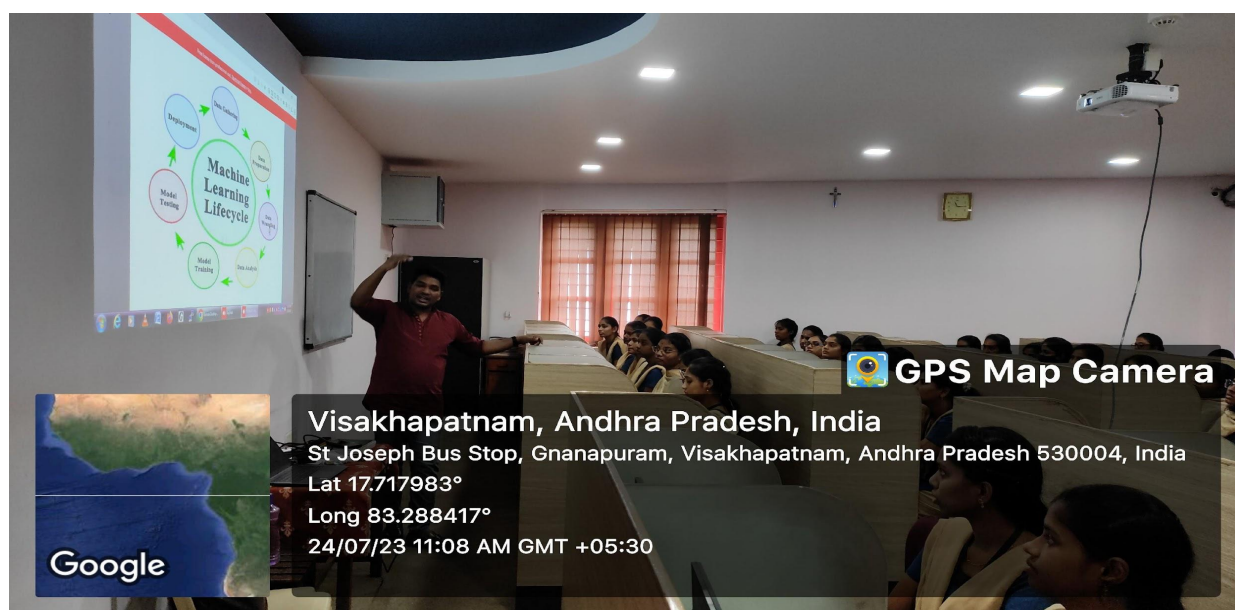

Data science is the study of data to extract meaningful insights for business. It is a multidisciplinary approach that combines principles and practices from the fields of mathematics, statistics, artificial intelligence, and computer engineering to analyze large amounts of data.

Cloud computing is a general term for anything that involves delivering hosted services over the internet. These services are divided into three main categories or types of cloud computing: infrastructure as a service (IaaS), platform as a service (PaaS) and software as a service (SaaS)

The main steps, methods, and tools to be used in project, such as charts, graphs, tables, diagrams, analysis and findings are illustrated.

To discuss how solutions can be applied, tested, or validated in real-world scenarios, with evidence such as metrics, benchmarks, feedback, to measure and compare the performance, quality, or satisfaction of the solution.
