

[Learn360](#) is a cross-curricular streaming video database for K12 schools and districts. Teachers, students, and parents can access more than 180,000 supplemental resources on any Internet-enabled device, anytime, anywhere through their school's subscription. Featuring vetted, safe, ad-free media content including videos, interactives, articles, songs, games, images and more.

[Classroom Video on Demand: Master Collection](#) provides users with over 31,000 full-length videos and 240,000+ clips designed for secondary school students. A cross-curricular video database with unlimited access for ALL departments.

[Credo: Source](#) Reference Database that helps students develop college readiness by improving critical thinking skills, information literacy abilities, research skill building and more. Prepare students for whatever the next level of academia looks like. Cross-curricular database that can support multiple subjects and departments.

[World Almanac for Kids](#) is a link between homework support and fun exploration. Including exclusive online-only material and content from award-winning Chelsea House and Facts On File sets and series. Includes thousands of age-appropriate content pieces like articles, videos, games, science projects and more.

[World Almanac for Kids: Elementary](#) is a compliment to World Almanac for Kids, especially for elementary school students. This database provides a wealth of content – including engaging articles, videos and interactives in a format perfect for helping young children develop online research skills.

[Science Online](#) brings a wealth of content that facilitates STEM research and learning. Science Online offers a comprehensive overview of a broad range of scientific disciplines. Topic Centers and eLearning Modules provide an easy starting point for research. A vast database of curated content provides interactive science experiments in a safe and user-friendly environment.
