

**General Assembly
IIIrd Session
November 30, 2018**

**Address of H.E /u/ninaad18 on the 30th November after the swearing in as the 3rd
Secretary General of r/ModelWorldUN**

Mr. President,

Excellencies.

With Utmost Humility that I accept the responsibility of the position of the secretary-general for this session of the United nations. The United nations has been an bedrock for maintaining peace and security for many years, and with the evolving time, there has been many challenges which it has overcome and many which it failed to overcome. This is the time that this organisation starts to retrospect and see where it has failed. As a organisation, we need to evolve and change the way its functions in order to be more relevant in the modern world and continue to find its relevance in the modern world.

There are a lot of issues which this organisation needs to tackle. Form ensuring that democracies are upheld in Venezuela, where the current government has been using force to suppress the will of the people, from the ethnic genocide in Myanmar, Togo and Benin, to the rising tension and the conflict between Ukraine and Russian Federation, and this list is ever expanding and Endless. Apart from that, we have issued like the situation of women and child safety and also looking issue sensitive issues like the rights of homosexual's and the LGBTQ

community, or the ways to protect the world economy from collapse in case of rise of trade war between the major economic powers in world, or issues of drug trafficking and child trafficking which also need to be addressed. This organisation needs to also now focusing on our future, and conserve and protect our resources on this planet.

It just seemed like yesterday that I was standing where you all are today, watching my predecessor, /u/politicsiscool13, take the oath of office. Even after the whole storm we faced and this restarting the sim, I am sure that he also had a vision for the Organisation which were left unfulfilled, and I hope that I am able to fulfill these duties and responsibilities which this organization had and which my predecessors has set.

Thank you.

/u/ninaad18
