

Quantitative Reasoning Foundations Class Information
MATH 0332.481

Welcome!

This course is a corequisite class that is required because of your TSI score. The assignments in this course will give you extra information, practice, and support for your credit level class, Math 1332: Contemporary Mathematics. *Your first quiz will be an acknowledgment that you have read, understand, and agree to the class information and the official course syllabus.*

Class Time:

This class is an 8 week online course.

Alternate Operations During Campus Closure:

In the event of an emergency or announced campus closure due to a natural disaster or pandemic, it may be necessary for Panola College to move to altered operations. During this time, Panola College may opt to continue delivery of instruction through methods that include, but are not limited to: online learning management system (CANVAS), online conferencing, email messaging, and/or an alternate schedule. It is the responsibility of the student to monitor Panola College's website at www.panola.edu for instructions about continuing courses remotely, CANVAS for each class for course-specific communication, and Panola College email for important general information. Courses conducted via video conferencing may be recorded and shared for instructional purposes by the instructor.

Canvas:

I will communicate with you through your Canvas account. I will send announcements for anything that is whole class related. I will send emails for individual communication. Therefore, please *check your Canvas every day!* Panola College provides every student with a Canvas Account. You will access Canvas by going to the Panola website at www.panola.edu.

Textbook and Supplies Requirements:

- Canvas
- Computer access
- No purchase required for our textbook
- internet/wifi connection
- Webcam (for online classes)
- pdf scanner (smartphone apps can do this)

Quantitative Reasoning Foundations Class Information
MATH 0332.481

- Clean notebook paper in a binder, or a spiral notebook, or note taking app for ipad/tablet
- A calculator is not required

Due Dates:

You will be provided with due dates for assignments for the entire semester in the following ways:

1. Canvas Modules have the due dates listed.
2. The Canvas calendar will have due dates.
3. There is a link to my planning calendar on the home page.

Several participation grades and homework grades will be dropped at the end of the semester. Also, the cumulative final exam will replace the lowest exam grade at the end of the semester.

Daily work (average is worth 25% of course grade):

In an online class, you are expected to access Canvas several times a week. Class participation assignments will be course procedure assignments, course information assignments, and lecture assignments.

Homework and quizzes will be assigned for each section. Homework and quizzes will be turned in through Canvas submissions. You should keep a binder or spiral of your written work of the assignments and notes.

In this online class, you will need to watch the videos and take notes while watching the videos. You can email me questions, and I can address them through email and/or our Zoom Video Conferencing.

Exams (average is worth 50% of course grade):

There will be 4 content exams which will be Canvas quizzes and are worth 100 points each. There will be no make-up exams. If an exam is missed, or if an exam grade is lower than your final exam grade, the content final exam grade will replace your lowest content exam score. You CAN use your notes on the exams.

In an online class, proctored exams must be taken using our online proctoring system or by going to a [Panola College Testing Center](#).

Non-proctored exams can be taken anywhere with internet access.

The exam dates and links are listed on our Canvas home page.

MATH 0332.481

Final Exam (average is worth 25% of course grade):

The final exam for this course will be a cumulative course exam that is worth 100 points. The final exam will also be used to replace the lowest exam grade.

Course Grade (100%):

Your grade will be calculated using the percentages above. I will only *consider* rounding a grade up if you have done all assignments, all exams, and all extra credit (offered at my discretion). For example, a 69.3 will be a D if you did not do the above things.

Tutoring/Getting Help:

First and foremost, *ask me for help*. I can Zoom conference with you, answer your questions through email, and make videos to answer your questions. I am here to help you be successful.

Withdraw:

Check the calendar at www.panola.edu for the last day to withdraw.

Scholastic Dishonesty:

Scholastic dishonesty shall include, but not be limited to cheating, plagiarism, and collusion and WILL NOT be tolerated. Because of the use of electronics to aid in this act, all electronic devices will be turned off unless it is being used for instruction. For more information see p.24 of the student handbook, *The Pathfinder*, that is located on the [Student Services](http://www.panola.edu) page at www.panola.edu.

Accommodations and Disability Support:

If any student in this class has special classroom or testing needs because of a physical learning or emotional condition, please contact the ADA Student Coordinator in Support Services located in the Charles C. Matthews Student Center or go to <https://www.panola.edu/studentservices/student-support/disability-support-services> for more information.
