    a. Now through May, we are currently in the process of delivering presentations to students in grades 4 & 5, and stormwater toolkits (4-5 overflow and 6-8), including posters shown below.

7. Member announcements/comments

Adjourn

The next SLCo Stormwater Coalition meeting will be held Wednesday, May 20, 2026 at 10:30
IN PERSON 🙂
We'll also host a link (as best we can) via Zoom:
https://us02web.zoom.us/j/3859464290?pwd=Z3JiL2twbU4xYk5ubkdoU1R2anFMUT09&omn=85608835023
Meeting ID: 385 946 4290 Passcode: Stormwater

Save our Water by Preventing

Stormwater Pollution

Where it Comes From

Where it Goes

When rain or water hit hard surfaces like pavement, it creates stormwater runoff.

This runoff picks up lots of nasty pollution as it is carried directly through gutters and drains out to the rivers, streams, and lakes that hold our drinking water, making them toxic and unsafe for people and animals.

What You Can Do!

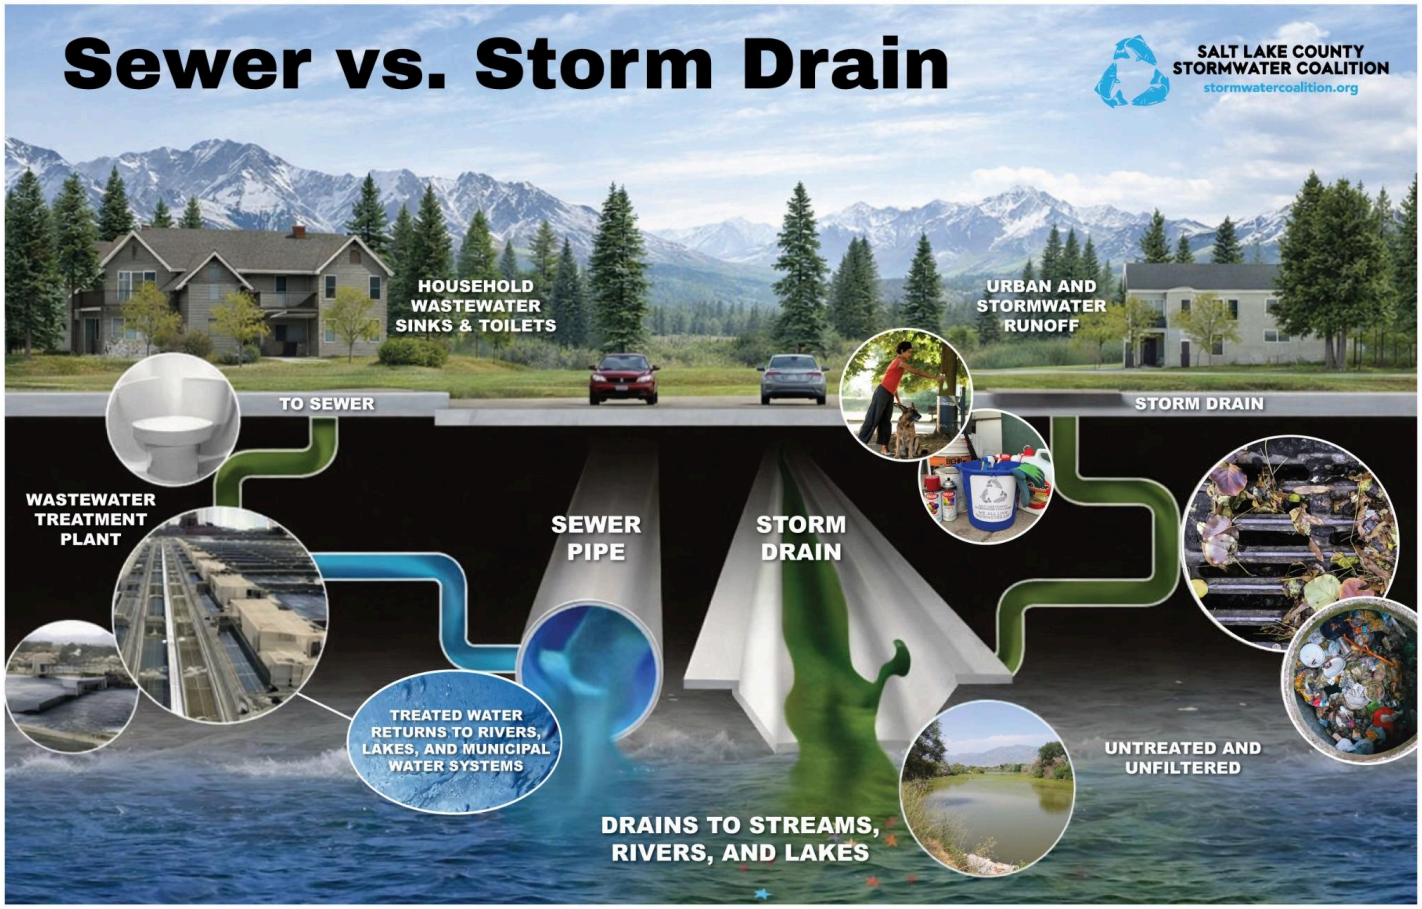

This pollution is not treated or removed from the water on its journey, so it is up to each of us to keep it clean and fresh from the start. Here are some things we can all do to prevent stormwater pollution and keep our communities looking and feeling great!

If each of us makes some small changes, we can make sure our waters are clean and our environment is healthy for all of us!
