Agriculture 8

UNIT

WEEK 12: November 16-20, 2020

Learning Targets

This week we will learn...

- What is biotechnology and how has it impacted agriculture?
- What will agriculture look like in the future with ever changing biotechnology?

"I can" Statements:

1. I can identify current uses of biotechnology in WI agriculture.
2. I can predict what the future of agriculture will look like with the help of biotechnology.

Learn About It:

You can explore some, or all of these resources. If you want to see a resource again, go for it!

[Biotechnology in Agriculture](#)
[Examples of Biotechnology in Agriculture](#)

Evidence of Learning

These items will be graded.
