

## ***Outreach, third attempt***

SL: Today is the day (client's name)!

I was looking for business peers on Instagram, found your profile, and took a look.

I find your watches beautiful and much better quality than most other collections.

I see you're struggling with gaining engagement on your Instagram, stopping you from getting people onto your website.

Speaking of which, I've taken notice of a marketing trend pattern that you are not taking advantage of.

But with experience behind me, I strongly believe I can also set up that strategy for you.

I will even make a funnel, free of charge. If this sounds like something in your interest, I'll happily get on a call with you!

Let's get this going.
