

FOR IMMEDIATE RELEASE

Orange is the official color for the prevention of gun violence in America. Current students all across the country have been born and raised the generation that experiences nothing but gun violence. In response, students from Santa Fe HS and 4 Student Activists from Houston have announced the launch of an organization, Orange Generation (O.G).

O.G is aimed at reducing gun violence, enacting and introducing common sense gun legislation, and beginning civil, constructive dialogue regarding gun reform. This includes mandatory gun lockers/trigger locks, mental health reform, and CDC research into the epidemic of gun violence. We also plan to provide rehabilitary services such as counselors and PTSD clinics for recovering survivors, as well as providing financial support to families of people injured in mass shootings. O.G supports the Second Amendment and believes in Americans' right to bear arms. The organization will push for "common sense" gun reform to ensure students today are the last Orange Generation.

Student founders: Bree Butler (SFHS), Brooklynn Butler (SFHS), Megan McGuire (SFHS), Kennedy Rodriguez (SFHS), Kelly Choi (Student Activist), Ariel Hobbs (Mayor Turner's Commission Against Gun Violence), Marcel McClinton (Mayor Turner's Commission Against Gun Violence) and Manju Bangalore (Student Activist).
