

MATH 8 SYLLABUS

2025-2026 School Year

Mrs. Worth

worthj@wyomingps.org

Hello and welcome! I am very excited to have you as a student and would like to give you a brief outlook of what you can expect this year in your math class. My hope is that you will find this class interesting, rewarding, relevant, and fun!!!

I. Course Description

This year Math 8 students will develop understanding of important concepts, skills, procedures, and ways of thinking and reasoning in Number Sense, Expressions and Equations, Functions, and Geometry. The goal is for ALL Math 8 students to become creative problem solvers, positive role models, and curious thinkers.

II. Course Expectations - "Be Safe, Be Respectful, and Be Responsible"

Students will be expected to be prompt, prepared, positive, and ready to actively participate each day. Don't be afraid to make mistakes and ask questions - that's how we LEARN! Most importantly, work hard and be nice...and good things will happen :)

III. Evaluation

Common Assessments (unit tests) will count for 60% of your grade.
Coursework (homework, assignments, projects) will count for 40% of your grade.

IV. Additional Help

If you ever need help, please do not hesitate to ask! I will be happy to communicate via email OR provide additional help after school from 2:30-2:55 p.m. (Monday-Thursday).

V. Class Website

Technology is often used to enhance student learning in this class. Our [class website](#) (which includes important documents, links to websites, and fun math games) can be found by using the QR Code located to the right.

While enforcing this classroom plan, I understand that you are indeed responsible for your own actions, and your success largely depends on this responsibility. Please let me know - at any time or in any way - how I may help you achieve success in this class. Here's to a GREAT year!!!
