Learning Outcomes of the Program DCMH

Learning Outcome

Community Health Nursing program outcomes

Upon successful completion of the course, students will have demonstrated the ability to:

- 1- Implement high-quality population-focused care to preserve, promote, and optimize the health of individuals, families, and communities throughout their lives.
- 2- Utilize and apply the concept, theories and principles of nursing science
- 3- Work with interprofessional healthcare teams to plan, coordinate, and deliver high-quality care.
- 4- Incorporate technology and information management to promote safe patient care.
- 5- Examine the impact of the environment and lifestyle on population health.
- 6- Educate individuals, families, groups and communities from a variety of cultural backgrounds about health promotion, health protection and disease prevention.
- 7- Demonstrate leadership qualities and decision making abilities in various situations.
- 8- Practice ethical values in their personal and professional life.
