

Senior iOS Developer

MySwimPro is seeking a full-time **Senior iOS Developer** to join our growing team and work on our award-winning apps. You will be joining a small development team responsible for the MySwimPro platform, which interfaces with iPhone, Android, and web clients in addition to a number of wearable devices.

We are passionate about designing the best product experience in the world. We're currently developing personalized coaching, advanced analytics, the Netflix for swimming, a social community, and expanding to new wearable devices. In addition to development, you will:

- Work with Apple's Core Data, Network, and WatchKit stacks
- Have significant product ownership - from design, to testing and deployment
- Help build an industry-leading mobile and wearable experience.
- Learn how to scale a technology startup.

THE IDEAL CANDIDATE WILL HAVE:

- Experience in Swift and a track record of shipping iOS apps to the App Store
- 2+ years of software engineering experience.
- Understanding of the HTTP protocol and interacting with Restful APIs.
- Understanding of security best practices and Computer Science fundamentals
- A great sense for UX and design.
- Self motivated with strong time management skills.

BONUS POINTS IF YOU:

- Participate in swimming, triathlon, or other fitness activities.
- Have scaled an early-stage technology startup.
- Have OSS Project(s) or contribute to OSS communities.

ABOUT MYSWIMPRO:

MySwimPro is a technology and media company that develops mobile and wearable apps that help people improve their performance and health. Launched in 2015, and named the Best App of the Year for the Apple Watch in 2016, swimmers in over 150 countries depend on MySwimPro for personalized swim training plans, educational videos, and advanced analytics. MySwimPro has been featured in Sports Illustrated among other international publications.

MySwimPro offers a competitive salary, equity, and health benefits. We have an office in Detroit, United States with team members working remotely around the world and host annual team retreats. Applicants should email their interest to Fares Ksebati (fares@myswimpro.com).
