

Sarbani Hazra - Chalfont Mayor

I am honored to be running for Mayor of Chalfont and would be grateful for your vote. I've been a proud Chalfont resident for nearly 3 years and both my kids attend Pine Run Elementary. Prior to moving to Chalfont, I lived in Eastern Connecticut and was an active member of the Waterford Democrat Committee. I ran for Waterford Town Council in 2019 and then in 2020, I served as the Communications Director for the 38th District Connecticut State Representative Campaign for Baird-Welch Collins.

In addition to my political experience, I bring over 15 years of grants management skills and community advocacy experience. I'm currently the Development and Community Engagement Specialist at Cultureworks Greater Philadelphia. In Connecticut, I successfully managed \$363,000 in funding artists, creative businesses, and nonprofits, fostered collaboration and equity in the arts community, and invested in high-impact public-art projects in the city of Norwich. My engagement with artists, community members, and city officials have helped remove art-equity barriers.

Throughout my career, I've cultivated relationships and collaborations with community leaders, businesses, organizations, and government agencies. These experiences have shaped my communication strategies, emphasizing the importance of community engagement, equity, and collaboration in achieving meaningful impact. I'm excited about the opportunity to lead and work alongside you to make Chalfont an even better place for all of us.
