

[Code Along: Vanilla JavaScript Art](#)

Step 1

On command line, create a file called `'christmas_tree.js'` in your `ASCPProjects/week1/day4` directory.

Step 2

Turn the christmas tree that you drew on paper into **code**!

Note to instructors:

Select a handsome-looking tree from the students' drawing and codify the tree along with the class.

Note to students:

Feel free to follow along OR continue to codify your own tree.

Sample tree:

Step 3

Enter `node christmas_tree.js` on command line to run your program.

Sample run:

```
ASCStudent@DESKTOP-RLIDLQU MINGW64
$ node christmas_tree.js
