Passionate and skilled social scientist with a dual background in Economics and Sociology. Experienced in analyzing complex social and economic issues, synthesizing and analyzing data, and contributing to the development of research backed policy recommendations.

Seeking opportunities to make a further impact in research-driven and/or policy-focused roles in support of organizations dedicated to driving systemic change.

Excel-certified and proficient in Stata, SPSS, and SQL.

WORK EXPERIENCE

Undergraduate Research Fellow

08/2022 to 08/2024

The Center for Growth and Opportunity

Logan, UT

Specialized in energy and environmental policy, including renewable energy incentive schemes, critical mineral supply chain security, and the impact of regulatory market design on differential energy output and capacity growth in the utilities industry across states. Contributed both qualitative and quantitative research and conducted data analyses in support of several policy papers.

Business Development Associate

06/2020 to 01/2021

LiveFree Emergency Response

Pocatello, ID

Wide range of responsibilities including creating and managing business models in Excel, working with others to build marketing strategies, and preparing PowerPoint presentations to communicate results and findings. Worked with upper management to complete complex projects within specific timelines. Enhanced collaboration between team members by preparing meeting materials and taking clear notes to distribute to upper management.
