

NCEA – 2023

At Green Bay High School, students in Year 11 generally study 6 subjects, including Maths, English and Science. In each subject, students are assessed against a number of standards using methods such as assignments, portfolios, and examinations.

When students achieve standards, they are awarded a number of credits (usually around 5 per standard), which are collectively used to gain an NCEA qualification.

Students in Year 11 during 2023 will typically be aiming to achieve **NCEA Level 1** this year. To be awarded NCEA Level 1, a student must achieve:

The **numeracy and literacy** requirements can be earned through:

- Tagged standards in literacy-rich or numeracy-rich subjects
- Common Assessment Activities (specifically for literacy/numeracy) in Year 10 or 11

NCEA – Future Years

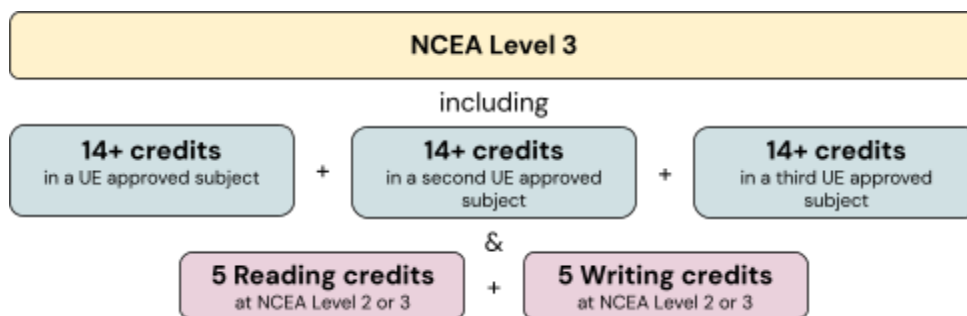

Current Year 11 students will typically be aiming to achieve **NCEA Level 2** next year. To be awarded NCEA Level 2 in 2024, a student must achieve **80 credits**, including:

Current Year 11 students will typically be aiming to achieve **NCEA Level 3** in 2025. To be awarded NCEA Level 3 in 2025, a student must achieve **80 credits**, including:

Many students will also be aiming to achieve **University Entrance (UE)** in 2025. To be awarded University Entrance, a student must achieve:
