

JaVRier FAQ

Q. How do I request a song/map?

A. Just comment the name of the song you want me to play on any video or social media.

Q. Can I request any song?

A. Technically yes, but I won't upload any offensive or controversial map.
If possible the song should be mapped.

Q. How do I know if a song is mapped?

A. You can check [here](#) or [here](#). Just search for a song or artist, this also shows difficulty and likes/dislikes of the map.

Q. Can I request a song even if it's not mapped?

A. Yes, I'll use Beat Sage (if possible) to automatically map the song, the quality of the map may vary. You can make a mapping request and I may map it manually for free, but that's not guaranteed, or you can commission it via Patreon.

Q. Can I request very hard maps?

A. Difficulty is subjective, you can request any song, in case that is too difficult for me I'll tell you.

Q. Requesting a song is free?

A. Yes, it's free and it'll **always be free**.

If we get to a point where there are too many requests I'll try my best to upload most of them or I'll implement some kind of cooldown.

Q. I'm a mapper, can I request my own map?

A. Yes, I'm completely fine with that, your map and mapper link will be at the description plus any info you want me to add.

Q. Will my name be shown on the video?

A. Yes, the username of the account you used to make the request will appear on the video.
If you don't want that please tell me when making the request, if you forgot tell me afterwards so I can blur it.

Q. How can I support the channel?

A. You can support the channel here <https://www.patreon.com/JaVRier> but sharing the video is free and helps a lot!

Q. Which sabers are you using?

A. Usually, Kurei.

Q. Can you map me a song?

A. Yes, you can commission a map via [Patreon](#) or suggest it in the comments. If you commission it I'll map it as soon as possible, I'll map suggestions only if I have enough free time. You can check my mapping progress [here. \(trello\)](#)

Q. Which grip do you use?

A. Default and M-Grip, I tried claw but I always end up coming back.

Q. What is your Mixed Reality setup?

A. I have a pretty cheap setup, two BDDFOTO greenscreen placed horizontally, AUKEY Webcam 1080P for recording and LIV for the calibration, keying and sync.
