

Good evening Lake Forest AP and Del Tech Dual Enrollment students and parents,

The AP exam and Del Tech class payments are still being accepted and will need to be processed as soon as possible (Due 9/25/23). Payments are accepted in the guidance office.

### **AP Information**

As we enter the second week of school I wanted to remind everyone that your child must be enrolled in AP classroom in order for an exam to be ordered. I have attached the AP registration form that has the dates and times of the test. Please ensure that your child is enrolled in the AP classroom. This may require setting up a College Board account or having a past account reset.

**AP Exam Cost- \$98 per exam.**

### **Del Tech/Dual Enrollment payment information**

The Lake Forest School District will pay for one dual-enrollment course. Each additional course will cost \$150. Therefore, 6 college credits (2 courses) will cost \$150, 9 (3 courses) will cost \$300, 12 (4 courses) will cost \$450, and 15 (5 courses) will cost \$600. Students who can provide evidence of financial need will be evaluated for approval. If approved, the LFSD will fund at least one additional course.

If you're only taking Math, you won't be charged.

If you're only taking the ENG101 and ENG102 group, you will be charged \$150.

If you're only taking the PSY121 and SOC111 group, you will be charged \$150.

If you're taking MAT152 and either the ENG or PSY/SOC Group (3 classes), you will owe \$300 (\$150x2).

If you're taking the ENG Group and the PSY/SOC Group (4 classes), you will be charged \$450 (\$150 x 3).

If you're taking all 5, you will owe \$600 (\$150 x 4).

You can request financial assistance that may cover one additional course.
