Abstract−Abstract is a short summary of the paper to help the reader quickly ascertain the purpose of the study and match the research needs. **The abstract must be clear and informative**, provide a **statement for the problem**, **the method** of solving the problem, and the **conclusions/provisional results of your research**. **Abstract between 90 and 200 words** in length. Avoid unusual abbreviations and define all symbols used in the abstract. Using keywords related to the research topic is recommended.

Keywords: *Keyword1; Keyword2; Keyword3; Keyword4; Keyword5* (at least 5 words related to the contents of the research separated by semicolon)

Articles are made into 1 column pages with A4 paper size. For Top Margin 3 cm, Left Margin 3 cm, Bottom Margin 3 cm, and Right Margin 3 cm. **Manuscripts are made using Microsoft Word, single spaced, 12pt Times New Roman, a minimum of 7 pages and no more than 15 pages**.

Please select an article title with the fewest possible words needed to adequately describe the content. Introduction must describe the background of the research, the research problem, the research related to what was carried out, the objectives and benefits to be expected from the research results, the solutions offered to the problems encountered so as to bring out the state of the art of your research. Introduction must also include a statement of the contribution of the research results. Articles must contain citations, such as (Kusrini, 2007) and so on. MUST use the MENDELEY citation tool or others with **APA Style format** (for a **minimum number of references 30 references**). Terms in foreign languages are written in italics. It is recommended for authors to use the following article structure:

- **INTRODUCTION**
- **LITERATURE REVIEW**
- **METHODOLOGY**
- **RESULT**
- **DISCUSSION**
- **CONCLUSION**
- **LIMITATION & IMPLEMENTATIONS**
- **ACKNOWLEDGEMENT**
- **REFERENCES**

The word count of the article ranges from **7000 - 9000 words** (including all manuscript sections, tables, figures, and references).
Maximum article contains 7-15 pages. **If article over 15 pages after the editing stage, a charge per page will be charged.**

INTRODUCTION (SUB TITLES, Left, Bold, Times New Roman 12, UPPER CASE)

This section contains the background of the research in the article. Explain it with a clear flow. This section must be able to provide a complete picture of the content of the article and the contribution made.

LITERATURE REVIEW (LITERATURE REVIEW, Left, Bold, Times New Roman 12, UPPER CASE)

This section contains the theoretical basis used in the research. Please clearly describe the relevant theory, model, framework, and hypothesis formation.

METHODOLOGY (METHODOLOGY, Left, Bold, Times New Roman 12, UPPER CASE)

Contains an explanation of the basic framework for conducting research which describes the framework for conducting research, the definition of variables and the analytical methods used in the study, the data and their sources in brief, the application of the method and testing in obtaining research results in line with expectations and research overview. It is better if there are figures and tables, it must be presented with the names of tables and figures accompanied by serial numbers.

Use high quality for the image used and include the image number in the description of the image. The formula uses the Formula Editor found in Microsoft Word. Formula numbering is made sequentially based on the order of the formulas contained in the article, and the writing is like (1).

$$\int_0^{\infty} \exp(-\lambda \mid z_j - z_i \mid) \tag{1}$$

$$\int_0^{\infty} \exp(-\lambda \mid z_j - z_i \mid) \lambda^{-1} J_1(\lambda r_2) J_0(\lambda r_i) d\lambda \tag{2}$$

Subtitle 2 (Subtitle Times New Roman 10, Left)

a. Use lower case and alphabet for numbering lists.
b. Setting 5 mm for the left indented.
c. If more than 1 level of numbering, use numeric numbering for the next list:
    1. Use numbering.
    2. Next

RESULT (RESULT, Left, Bold, Times New Roman 12, UPPER CASE)

This section describes the results of the study. **Results should be presented clearly and concisely**. **Authors should explore the novelty or contribution of the research to the literature used**. Present clearly the results of the analysis and discussion using primary, relevant and up-to-date references.

Figures and tables must be placed as close as possible to their reference points in the text and must be numbered sequentially as they appear in the text. **All Figures and Tables must have a title (minimum 2 words) and must be referenced from within the text**. In this case it must be added and numbered sequentially in decimal numbers with descriptive information. Avoid colorful images.

This section contains the results and discussion of the results of the research, which can be made in advance of the research methodology. This section also represents explanations in the form of explanations, pictures, tables and others. The number of words in this section is around 1800 words min.

DISCUSSION (DISCUSSION, Left, Bold, Times New Roman 12, UPPER CASE)

This section contains a discussion of the research results. Explain logically the relationship between data and scientific interpretation so that relevant findings are obtained.

CONCLUSION (CONCLUSION, Left, Bold, Times New Roman 12, UPPER CASE)

This section describes the results of the study. Results should be presented clearly and concisely. Authors should explore the novelty or contribution of the research to the literature used. Present clearly the results of the analysis and discussion using primary, relevant and up-to-date references.
