Respected Editor

I am Clara Grindelwald, a student of House Slytherin. I wish to nominate My Halloween display as a part of your World Wide Highlight. I live in a part of the world where Halloween is not a huge celebration. Though, In my Society, for the sake of candies and chocolates small children do dress in spooky themes, parade through the society as a group which would make even the darkest creatures give them sweets due to their cuteness.

I decorate a variety of themes including but not limited to Harry Potter, Pirates of the Caribbean, Lord of the rings etc. My theme this year is “**Dark Arts across ages**”. So It portrays the occurrence of Dark Magic across different Worlds. It also portrays dark magic in real life which are the feelings of Anger, Lust, Greed, Violence, Hatred, Envy, Jealousy and Betrayal. It revolves around the notion about how words have the power to heal and kill, and how dark words have the power to dive the knife in deep...and one might never realize it.

The main focal point of my display will be the variety of news articles portraying the violence and anger across the world from last halloween to this halloween. This display will also contain a quote about emotions. ***“Emotions, particularly anger, are like fire. They can cook your food and keep you warm, or they can burn your house down”***

Other than this there will be two more important displays..One about the awareness of mental health and the other is about feminism. My displays will also contain small tragic love stories which gather a great deal of children's attention. There is always some message in my displays..Last year for example was Self discipline and hygiene, and in 2019 “the effect of social media on everyday lives”. But these themes are made in fun illustrations to drive the message but also provide meaningful entertainment

It is a pretty small display fitted in my flat/apartment so absolutely not too many visitors. The Pandemic is also said to affect magical beings, so only close family and friends will be invited. The display will be filmed live by muggle means to ones who weren't able to visit due to the pandemic. Happy Halloween, have a safe and sugar-filled Halloween.

Sincerely,

Clara Grindelwald (Slytherin)
