2026 In-season Practice Update

Hello Teams!

We have had several queries regarding practice availability this season. As we announced several weeks ago, we have been working on putting together a practice program for the season. Unfortunately, there has been a delay as we sort some crucial final details.

We are happy to announce that we do have 5 confirmed dates at this point:

Sunday April 19th - Kartbahn
Sunday April 26th - Kartbahn
Sunday May 3rd - Kartbahn

Monday July 27th - Scotia Speedworld
Sunday August 23rd - Scotia Speedworld

NOTE: The first 3 dates will be a combination of Rookie schools and open practice.

****Registration for the first 3 practice sessions is open at www.amka.ca ****

Pricing

The plan is to sell practices as AMKA season packages. Once we are able to announce those, we will offer a credit for the practices each member has paid for individual practices attended and paid for to that point. Individual practices are set at $65 per driver.

Registration and Waiver reminder

All members attending the practices must be registered, paid and have the e-waiver completed. This includes 'Associate members'. Associate members are Parents and support personnel. Associate membership also gives you club voting rights. Associate membership is often overlooked when registration is filled out and is actually important to have completed.

Thank you for your patience.
