[Your Name]

P.S. Free Traffic & Commissions On Autopilot

Subject: EASY FREE TRAFFIC

Hi -ok,

Everybody needs to get TRAFFIC because that's where the profits come from!

Problem is, getting traffic can be a royal headache.

You can work yourself silly trying to get people to see your offers, and end up tired, bloody and no better off than when you started the exercise.

But I'm going to make it unbelievably easy for you to get as much traffic as you want...and NEVER pay for it.

Sounds too good to be true? It's not. This one simple system makes it a reality for ANYONE. Follow the easy steps and then watch the traffic start flowing in. Yes, it's that simple. Check it out for yourself by clicking here...

When it comes to getting traffic, you have three big options:

- 1) Buy it
- 2) Convince other marketers to send it to you

3) Get it for free

That's your menu.

Unless you have some serious contacts, the second one is pretty tough. Sure, you can do it, but it's a big mountain to climb. Not everybody is "connected," right?

That third one looks good, though. Who wouldn't want massive amounts of visitors without paying for them?

The BIG downside is that making that happen typically takes massive amounts of work. Think about writing five articles a day for month. You'd go screaming into the night.

So what do most people do?

They buy visits.

That usually means paying boatloads of c*sh for Google AdWords ads. And more often than not, that m*ney ends up wasted. Might as well burn it. You can lose your shirt in a flash.

Well, what if you get all the no-cost traffic you wanted, and NOT work yourself senseless? That would make the third option the ONLY one worth considering.

And that's exactly what "Free Profit Loopholes" does.

It's a simple system that shows you a never-before-seen method to get as many visitors as you want...for zero cost.

Really. You just access this wonder, follow a few steps I show you, and out comes a massive hordes of visitors laser targeted for whatever your offer is.

Even better, it works for ANY offer you want, even ones you don't own!

You can send your visitors anywhere.

It's right here...

Once you're there, check out the results you can get using this set-and-forget system.

It's a little shocking. It may actually rock your world :)

The single biggest struggle any marketer of any kind faces is getting people to see what he's selling (or promoting...remember, you don't have to own the site you send visitors to).

Okay, now imagine being able to get as many visitors as you want within DAYS, and never having to worry about traffic again.

That's how powerful "Free Profit Loopholes" is. It does an end run around any paid traffic approach, unleashing rivers of unpaid traffic in your favor.

If you've always wondered what life would be like if you didn't have to be obsessed with getting visitors, "Free Profit Loopholes" can open that door.*

Subject: {!firstname_fix}, Your Traffic Problem SOLVED

Hey ,

Like most marketers, entrepreneurs, affiliates, and business owners online... you probably have a problem...

TRAFFIC

It's a BIG problem we all face.

Getting REAL traffic often takes a Herculean effort (or you have to spend ungodly amounts of money).

For instance, if you want to generate traffic from Google, you have to build websites, write articles, generate links, etc...

It can take MONTHS to see any results... and there's a big chance you'll see NO results at all... (what a waste of time and effort).

Paid traffic is no better. Sure, you may get traffic sooner... but you still have to put in a lot of work to write the ads, build the landing pages, write the copy, set up the links, etc...

It seems like most options really suck...

Except today I'm coming to you with a NEW option...

I recently discovered a fresh, unique traffic source that can deliver you daily traffic to any offer you want...

And for a limited time you can get it without spending a dime...

You'll find all the details in a new training that walks you step-by-easy step through the whole process.

But you've got to hurry as it's almost over...

This is something I really think you should check out.

I really recommend it.

Subject: From Welfare To Working From Home

I'm lucky enough to have never been on welfare (although I was really close to it at one point in my life).

I do know people who have been on welfare and I know people who are currently on welfare (and people who will SOON be on welfare).

I also know people who've gone from welfare to success... working at home with their own profitable online business.

These people were able to turn things around because they discovered marketing systems that ACTUALLY worked. Systems that produced real results and literally allowed them to go from "rags to riches".

Systems like this one here that make getting results online almost too simple....

This is a brand new, breakthrough system anyone can use to profit online and achieve the success you've been dreaming of.

But hurry, this will be taken down soon.

See you there,

Subject: Work From Your Bed

How nice would it be to make a wonderful living from the comfort of your own bed?

Or your kitchen table... Or your own home office...

The point is, there's not many things in life that are better than being able to get results from home and make a comfortable living.

I've been doing it for years and it's been amazing.

You know one of the most important factors that has allowed me to do this?

Generating traffic

But it's never been easy.

At least until now.

In fact, I've found a new training program that reveals a fresh and unique traffic source most people have never heard about.

And I show you how to use it to generate daily sales and commissions.

The training is available right now for a reduced price.

But, this is going to go away very shortly so if you're interested, you need to be fast and get moving.

If you're looking for a way to get some quick results with little effort... and you'd like to spend MORE time in bed and less time at work...

This is for you!

Check it out before the timer reaches zero...

See you there,

Subject: you've made a sale online...

I don't know one single online business person who can't remember their first sale....

It's something that gets burned

in your brain like a red hot branding iron - leaving an impression that will last in your mind forever.

I remember the jumping around the room when my first sale came through. It was like Christmas.

Anyway - the first time you make a sale, it's like the first time you ride a bike or get kissed...

==> [Your Affiliate Link]

it's addictive as heck...

Trouble is, if you haven't made one yet then you're not "hooked" - and that's a problem.

If you've made a sale online...

...and you know how good it feels, head over to the next page and learn a different way to bring in even MORE sales...

If you've NEVER made a sale online, you're gonna be shocked when you see how easy it can be...

==> [Your Affiliate Link]

(Be fast, the timer's almost at zero...)

Best Regards,
Will

P.S. It's a shame for you not
to make good money online -- when
other people do it so easily.

If you have never experienced
the feeling of making your first
sale online yet, then...

...YOU "really" need to get
your hands on the super-secret
strategy released in this new
training.

Subject: FINAL NOTICE

This is my last email about the SUPER SIMPLE system for getting 100.00 per day in just 10 minutes...

Go see this :-) <---amazing

This is very inexpensive ...especially considering what you're getting.

You can generate nearly unlimited no-cost traffic and send it to any offer you want... and start it all in just a few minutes...

People have been emailing, telling me how incredible this system is ever since it became available.

Join me and start getting results in in no time. As in ...ten minutes (or even less).

More here.

[Your Name]

The discount ends soon...

If you don't get it, it's gotta be either one of two reasons:

1. You already get as much traffic as you need.

2. You don't need an extra 100 bucks a day.

And hey - if those are your reasons then I respect your decision.

But it sure can't be about the cost of this system because it's so low I was concerned people wouldn't take it seriously.

(I was wrong).

And as you can see from the proof on the page - this beginner-friendly system works.

So - last call - check it out here or miss out.
