PARENT LETTER

Dear Parent/Guardian,

Akron Children's School Health Services is offering school-based vaccination clinics to provide vaccines that your student may be due for. Vaccines will be administered during school hours in your student's school building.

Vaccines are billed though insurance. Most insurance plans cover vaccines, and there is no cost for students who are uninsured. Please check with your insurance provider to confirm that Akron Children's is a covered medical provider.

Participation is voluntary. Only students with a completed parent/guardian consent form will be eligible to receive vaccinations.

Please review the Vaccine Information Statements (VIS) by scanning the QR codes next to each vaccine.

Your School's Vaccine Clinic will be May 12, 13, or 14th 2026

Return the signed consent form by: May 4, 2026

HPV (9 and up) a 2 dose series given 6 months appart (Human Papillomavirus)		☐
