

# Homework for Term 4, Week 1

## Maths

[Maths Magician](#) is an oldie but a goodie. When you play it this week focus on your division skills. Work at the level that challenges you, don't spend any time on Level One if you find the questions too easy.

## Reading

Read for 20 minutes each day, from Monday to Thursday (you can read for more, and read in the weekends too!)

## Spelling

Learn your weekly spelling words. Remember to spend a little time each day learning the words. Don't leave it all until Thursday evening!

## French

A new topic will start this week, with the topic being the weather. Check out our [French blog](#) to get a head start on some of the vocab that will be covered in the unit.

## Te Reo Maori

This week the [Let's Learn Te Reo Maori blog](#) focuses on telling the time at quarter to the hour.

## Health and PE

Aerobic exercise is a fantastic way to get your brain working in an optimal way. This week for your homework go for three 10-15 minute runs. You will find that as soon as you have finished you will be feeling great and your brain will be ready to learn whatever you want it to.

## ICT

If you haven't already done so, set up your Twitter account.
