UW-Madison Recent Graduate, 3.2 GPA, Aspiring Software Engineer

EXPERIENCE

UW-Law School, Madison, WI - Tech Support

September 2019 - May 2022

I provided support for students and faculty at the law school involving AV Systems, and any sort of personal computer, printer, or other tech trouble anyone may have.
I also completed a couple of **scripting jobs including JavaScript. I recently completed a JavaScript project that can be found on my Github**. We are also responsible for the copyshop, printing course packs for students as well as print jobs for faculty.

Summer Tech Bootcamp, Grand Marais, MN - Co-instructor

August 2019

I was one of two instructors for a week-long 6th - 8th grade technology bootcamp. We taught the kids programming, starting with programs like scratch and graduating to basic python. We also covered networking, current tech team strategies such as Agile, and web programming.

Boreal Community Media, Grand Marais MN — *Migration Project Manager, Tech Support, Customer Service*

March 2017- January 2019

I started as an intern, but within the first two months I was Project Manager of an Email migration project. When that was done, I handled the majority of their tech support for customers. While doing tech support, I also trained and managed multiple different interns.

Cook County ISD 166, Grand Marais MN — Student Tech Intern

January 2018- June 2018

In an accredited internship from my school I worked with the IT professionals who administered the tech systems for the high school. I worked with Google Admin and learned about how to run a large system like a school.

SKILLS

Java Programming, JavaScript, Agile. I have recently taken courses in Algorithms and Operating Systems

Excellent people skills, very flexible with a team.

Hack Club, Grand Marais MN — Club host and Leader

January 2017- June 2018

I was asked to lead a section of an international club called Hack Club. The club focused on teaching members computer science skills and redefining the word “Hacking”. The club is meant to turn hacking into something closer to life hacks, where students and members use their skills to progress experiences for everyone. My good friend and I were the Leaders, organizers, and sole representatives of the club.

Private Tech Support, Grand Marais MN — Owner

June 2016 - July 2019 Excluding Winter Months

General in home tech support for Cook County MN residents. This included many tasks such as virus removal, general computer clean up, and variable troubleshooting.

First Robotics, Grand Marais MN — Robot programmer, wiring and design lead.

September 2014- June 2018

My freshman year of highschool through senior year I was a part of my local robotics team for the FIRST robotics competitions. Starting Junior year I was the leading engineer for the programming, wiring, and design of our robots.

EDUCATION

University of Wisconsin, Madison WI

Jan 2019 - Present
Computer Science, School of Letters and Science.
I am a senior this year.

ISD 166 Cook County High School, Grand Marais MN — *High School Diploma*

Sep 2014 - June 2018

Completed High School in my home town of Grand Marais, MN.
