

Tarot for Transformation – 1:1 Coaching Experience

This 1:1 Coaching Experience is for you if you

- Crave clarity in a significant change you are experiencing in your life
- Desire guidance and support to achieve your dreams and goals
- Seek the tools to break down old roles to step into your best life

During this experience you will find–

Clarity. We all face times in our lives that challenge our thinking–cause us to doubt ourselves. In Tarot, we call those Tower moments–your world is coming apart around you. And through Tarot, you can find clarity through these moments–working to rebuild yourself–your core identity–to realize a beautiful new path for yourself.

Guidance and support. So few women today have the guidance and support of other women in their lives. Through this unique Coaching Experience, you receive guidance and support from me, the cards, and the Divine. Together, we will thoughtfully evaluate your dreams and goals–then craft an action plan for you to realize them.

Tools. As women, we often put our hopes and aspirations on hold while we take care of other people or live up to others’ expectations of us. In this Coaching Experience, you will develop the intuitive yet practical tools you need to let go of the old roles and expectations that are holding you back in your present journey.
