Dear Massabesic High School Community,

This morning one of our students was involved in a motor vehicle accident on their way to school. Our thoughts are solely with our student and their family at this moment. The student was transported by ambulance to the Massabesic High School campus, and was subsequently transported to the hospital at approximately 8:15 am. Students and staff were asked to remain inside of the campus buildings to ensure both safety and privacy for all involved. We have no further details at this time and ask that our entire Massabesic High School community keep our student in their thoughts. When further information is available to share, we will do so when appropriate.

Regards,

Ty Thurlow, Principal
