

VillainTheory's EVERY VILLAIN'S BEST MODULAR SETS

By changing a scenario's modular encounter sets you can nudge the difficulty up or down, tell new stories, and turn villains you have previously fought into fresh new experiences. Please note however that modular sets only influence a villain, they are just one part of a larger recipe – albeit a significant one.

There are over 600 villain/modular set combinations ready in this document for you to explore. I hope you enjoy them, and I hope it inspires you to try villain/modular set combinations of your own. While I have called these the “best”, that is just my own opinion – the possibilities are almost endless!

– VT

MODULAR SET QUANTITY & NEMESIS SETS

Some villain/modular set combinations below include **more** than the recommended number of modular sets. This is **deliberate**, and is **permitted within the official rules!** (*Rules reference 1.6, page 46*)

A small number of these combinations also substitute modular encounter sets with **nemesis sets**. While not within the *official* rules, the company behind the game has used nemesis sets this way in **official** challenges. If it's good enough for them, I think it's good enough for us – and it unlocks a whole new layer of replayability.

DOCUMENT GUIDE

- Each villain/modular set combination is named to give it an identity.
 - Each named combination has a difficulty rating between +4 (a LOT harder) and -3 (much easier).
 - Any combination listed as “+0” difficulty is approximately as difficult as the default “recommended” modular.
 - In short, any combination listed BELOW the “DEFAULT MODULAR” is HARDER than usual.
 - And any combination listed ABOVE the “DEFAULT MODULAR” is EQUAL to it or EASIER.
 - **Combinations with a ✓ are quick recommendations with safer choices suitable for most decks** (though the difficulty rating and the villain themselves should still be considered) – however I strongly encourage you to explore beyond just playing these!
-

PACK GUIDE

CORE = Marvel Champion Core Set
GG = The Green Goblin Scenario Pack
PRINT = Official Print-and-Play Cards
RORS = The Rise of Red Skull Campaign Expansion
KANG = The Once & Future Kang Scenario Pack
GMW = The Galaxy's Most Wanted Campaign Expansion

THE WRECKING CREW SCENARIO PACK

WRECKING CREW

Themes: Breaking, Crime, Escape
Mechanics: Multi-Villain, Attack Abilities

NOTE: WRECKING CREW DOES NOT NORMALLY CONTAIN ANY MODULAR SETS.

Unofficially, you can do either of the following:

- Add a modular set to each Villain's deck
- Shuffle four modular sets together, divide them into four equal stacks, shuffle one stack into each villain's deck.

Name	Modular Sets	Difficulty	Notes	Packs
Get Wrecked	City in Chaos Down to Earth State of Emergency Power Drain	+0	Keeps the scenario to very few minions. Thematic (<i>wrecking the city</i>).	SM SM HOOD GG
Mass Breakout ✓	Sinister Syndicate Iron Spider's Sinister Six Masters of Evil Running Interference	+1	Many minions. Mixed minions. Criminal trait interaction. Thematic (<i>breaking out</i>).	HOOD SP//dr CORE GG
All-Out Assault	Standard 1 Hydra Assault Weapon Master Symbiotic Strength	+1	Extra attacks (in each set) to combo with the Wrecking Crew's attack abilities.	CORE RORS RORS SM
Goblin Quartet	Goblin Gear Osborn Tech Sinister Assault Iron Spider's Sinister Six	+3	Extra minions. Attachments. High boost icons.	SM SM SM SP//dr

THE RISE OF RED SKULL CAMPAIGN EXPANSION

CROSSBONES

Required Modular Set (for Side Deck): Experimental Weapons

Themes: Weapons, Mercenary, Hydra, Attacking

Mechanics: Weapons, Attachments, Boost Icons, Hydra
