***Remember**: Agenda must be complete (with estimated times) on the day before the meeting.*
Any additions after that must go at the bottom (AOCB)

>>> 17th April

Dundee: Will, Kenny, June, Mark, Dominik, Simon, Helen, Petr,
Remote: Sebastien, Josh, Andreas, David, Melissa, Liza, Chris
Start: 2:00 pm

1. Accepting minutes from last meeting

2. Project Status

(2-3 minutes each)

- West (Workflows)
    - Making all data used in training public.
        - Targeting Users Meeting
        - Still some to go & docs
    - Figure testing
        - Some feedback and PR fixes
        - Current PRs not being merged - mgmt tools change
        - https://docs.google.com/spreadsheets/d/1qdOAv0wUgAVHEtlVroOwkeNUoNwst-APSPFJk6-3Sz8/edit#gid=0 Testing sheet. Mostly Big Images but others too.
    - Iviewer - few smaller PRs for 1.0.0 release
    - IDR analysis testing
        - 50% of notebooks not passing
        - Simon: need to start merging PRs. Fix notebooks or workaround
        - Using JupyterLab with some issues vv rolling back to Notebooks
        - Training notebooks and IDR notebooks to manage using same pattern
- East (infra/IDR 0.5.0)
    - OMERO 5.4.6: first phase of read-only work now merged and released as 5.4.6-rc1
        - No change to mainline build yet, but tag is stable
        - Consider merging to develop and working on 5.4.6-rc2
        - Merged into idr metadata 0.5.4
    - IDR 0.5.0: currently attempting a deploy of 0.5.0-rc2 (mapr still slow)
        - Few UI issues, but existed on prod47 already
        - J-m: need to disable script
    - Beyond: HPA and other datasets
        - Starting to import Human Protein Atlas data.
        - LOTs of Datasets to handle in webclient UI.
    - Bio-Formats 5.9: tiffpyramids PR open and tests passing
        - Review whether tiff pyramids are giving expected behaviour
        - Please review PR if interested before it is merged to ‘East’ Thurs/Fri
    - Kenny: GDPR & Brexit warning
        - Whois changing
        - Some domains may need revoking
        - i.e. *.eu may get yanked.
        - Seb: will follow up on GDPR re: personal info soon.
- Glencoe - 14:19

    - OMERO.parade work in progress towards 0.1.0
    - File-handle leakage PR still open
        - Josh - candidate for 5.4.6-rc2
        - Set environment variables?
        - Chris: depends on Python versions but probably yes.
            - No good reason to have many Python threads per workers
            - Pin in settings.py?
            - Or on gunicorn launch.
    - Recruiting
- Community
    - PyPi meltdown - Seb: Pypi.org TLS v1.0 and 1.1 deprecated. Easy-install fails on older systems - e.g. we have several older CentOS
        - Upgrade setup_tools and use recent pip.
        - Tested via IDR deployment workflow
    - Users' Meeting, June:
        - Registrations progressing as expected
        - Similar logistics to last year, rooms catering etc.
        - Need to start settling workshops, names etc.
        - JM: discuss this week: 2-3pm on Thursday (Jason travelling)
        - Kenny: testing network at Dalhousie this week - any URLs we know to test

3. AOB

(5 min. max; tech. Discussion should be highlighted to relevant people and rescheduled)

- Redirects are very painful for years, let's avoid where possible!

4. Main Topic

(20-25 minutes plus 15 minutes questions max)
