

Dear Junior Class Parents and Students (Class of 2027),

The 2025-2026 school year and testing season is fast approaching and this email contains important information regarding the PSAT/NMSQT.

All **PSATs will be administered digitally in the fall of 2025**. This test is adaptive (like many other standardized tests), which means the questions are presented dependent on performance in the first module students complete. We will be offering the **digital PSAT** at Medfield High School for only the Junior Class on **Saturday, October 18th, 2025**.

****If you would like to register for this test administration please [follow this link](#). Registration will open on August 11th and the **deadline to register is September 10th**..****

Students will be taking this exam on their own personal devices; the College Board has provided information about approved devices ([click here](#)). In order to take the digital exam, an application called BlueBook needs to be downloaded from CollegeBoard and installed on the student's laptop. Information about the app and how to download it can be [found here](#). Please note the following:

- Only Windows (11) or Mac (macOS 12.0 - 15.5) devices are supported by Bluebook. **Personal Chromebooks can't be used.** If your child has a school-managed Chromebook they will need to check in with our tech team about the download. We will be following up regarding the app in September/October.
- On test day, the device must be fully charged and will need to stay on for about 3-4 hours. It is recommended to bring a power cord or a portable charger just in case.

Students will need their own College Board account to use Bluebook on test day. If you already have an account, do not create a new one, but make sure you can access the one you have prior to test day. Go to www.collegeboard.org in order to create and/or check your account.

If you would like more general information about the PSAT you can go to [this link](#). If you scroll to the bottom there are links to frequently asked questions.

We will be following up with students regarding the PSAT and the Bluebook app in September or October but [registration](#) needs to happen prior to September 10th.

Thank you for your attention to this matter.

Alice Bonomi (formerly Alice Luczak)

PSAT and SAT Testing Coordinator
