

RPMS Distance Learning Plan

Our goal continues to be to safely remain in face to face learning. We love seeing your faces. As health information changes around us, there may be a need for the structure to go to distance learning at different points in the year. If we have to flip from face to face to distance learning, we are here to support you during this change and have a plan so learning continues.

So, what if we are told that we can no longer be face to face in school? What should you do?

Wake up the next school day in the morning and check your e-mail and Google Classroom. We will use these methods to communicate. Staying on a sleep schedule will be important and so is eating breakfast and preparing for the day (brush your teeth 😊).

Be ready to join Google Meets at 9:00 for Block 1, 10:30 for Block 2, and 12:30 for Block 3. The links will be in Google Classroom. You will be expected to join these meetings and teachers will take attendance. During this time a teacher might provide direct instruction, answer questions, facilitate collaboration on a Google doc, ask students to share out, or use another method to progress learning. Keep your backpack near you and have materials ready.

Complete any work assigned outside of the Google Meets. Expect to have work beyond the time spent in the Learning Forum Google Meets. The teacher may also assign a time for you to meet with a small group or one on one with the teacher during the flex times (schedule below). You can complete work at times outside of the schedule below.

Reach out to your teachers if you need help with the material or don't understand directions.

Reach out to any adult if you need help with technology, emotions, food, or other needs. We are here to help and want you to be successful.

Demonstrate Respect, Pride, and Integrity with your interactions and quality of work in this new environment. Remember that our need to value others and show that they matter does not change because we are not face to face. Show pride and integrity by doing your best work.
