

## Practice Task: Brainstorm Activity Ideas

**Goal:** Explore how AI can assist with generating fresh ideas you might not have thought of on your own.

**Tool Featured:** Gemini  
(SchoolAI's Time-Based Activity Tool is another option)

### TASK STEPS

1. Navigate to [Gemini](#)

2. Paste one of the following prompts into the "Enter prompt" dialogue box. If you wish, edit the prompts to make this task more relevant to you.

Format: [Enter your persona], [state your aim and recipients]. [Describe the theme and structure].

#### Prompt 1

I am a kindergarten teacher. Offer 3 ideas to help my students get to know each other on the first day of school. The ideas should be fun and ability inclusive and should take less than 15 minutes.

#### Prompt 2

I am a 6th grade English teacher. Offer 3 extra credit ideas to help my students raise their grade. The ideas should be fun and focused on reading.

#### Prompt 3

I am a 10th grade Physical Education teacher. Sometimes students in my class can not participate because they do not dress for class or are injured. Offer 5 alternatives on what students who cannot participate in gym class can do instead. The ideas should all be relevant to physical education.

#### Prompt 4

I am the advisor for the high school Prom committee. Please suggest 5 student and staff fundraising ideas to raise money for students to attend prom. The ideas should not involve students going door to door to sell goods.

3. Run the prompt

4. Review the output

- Does the output address the prompt?
- Is the output relevant and appropriate?

**Optional Next Steps:**

- Revise your prompt as needed, adding more specifics
- Rate the response
