Cold War Essay Review

Utilize the space below each question to formulate an outline of how you would answer each question. Two questions will be selected on test day for you to choose from.

1. Compare and contrast the conflicts in Korea and Vietnam. In what ways were they similar and in what ways were they different?

2. Cite specific ways in which the United States used the foreign policy of containment to prevent the Domino Theory from becoming a reality. A minimum of three examples must be provided for full points.

3. How was Europe affected by the Cold War tensions between the USSR and United States? Provide examples of specific events highlighting ways in which Europe became an ideological battleground after WWII.

4. Espionage (spying) played a major role in the Cold War. Provide specific examples of espionage committed by both Superpowers and what effect it had on American politics.
