

Signatories in support of the need to protect US river health by maintaining the legal status of temporary waterways

We, the undersigned, support the need to protect US river health by maintaining the legal status of temporary waterways as outlined in the letter to Science of Marshall et al.

(*Science* **361** (6405), 856-857. DOI: 10.1126/science.aav0839)
