

Glyph Drift Privacy Policy

Effective Date: June 18, 2026

Glyph Drift is designed as an offline single-player puzzle game shell.

Data We Collect:

None.

Accounts:

The game does not require account creation, sign-in, or profile setup.

Analytics and Tracking:

The game does not use analytics, advertising identifiers, or location tracking.

User Content:

The game does not support uploads, comments, chat, public usernames, or user-generated levels.

Local Storage:

The game stores progress locally on the device, including unlocked chapters, level completion, sigil ratings, settings, hint usage, and daily relic history.

Children's Privacy:

The game is intended to be family-safe and does not knowingly collect personal information from children.

Contact:

For privacy questions related to this build, contact the publisher or development team listed in the app metadata.
