

Understanding Diagrams

Credits: Science- Physical, Science- General, Other (See Staff to Learn more)

Competencies: Analyze

Course Description: How does our physical world work? And how might it work if things were just a little different? In this course, you'll explore diagrams to better understand the world around us, complete field work, and get a better understanding of the way the world works. As a final step, you'll create an artifact from a speculative world where things are a little different!

Interests: Speculative Worlds, Science, Science Fiction

COURSE INFO:

Class Meeting Time/ Location Subject Spotlight

Interactive Experiences: Peer to Peer Interaction Required, Occasional Group Work, Labs, Field Trips

Class Format: Even Split of Asynchronous/Synchronous

Join: Anytime! (rolling)
