## Categories:

### OTA Performance - Climate Change

Deforestation and climate change have tree huggers on edge! Activists are seeking more executive orders to protect forests across the country that would aid their mission of environmental activism. For this category we want to see you STORM the runway inspired by one of the 5 components of nature: **Earth, Water, Fire, Air, or Space**

### OTA RUNWAY - Fake News:

The FIDM museum has decided to curate a Musical Legends Retrospective that will include stage costumes of the most inspirational artists from each decade. Some of the most outrageous costumes from the likes of David Bowie, Michael Jackson, Little Richard, and more will be a part of the exhibit. Recreate a look worn by a departed music legend and bring it to the runway.

### OTA REALNESS - Inside Scoop:

Queer icons Don Lemon and Anderson Cooper brought us the hottest topics at CNN. This powerful commentary served its right-wingers left & right. But behind the scenes, though they both fought for what's right (or left if you will), they had a strained relationship at CNN. Tonight, bring it as a broadcast journalist.

### OTA FACE - News Break:

Politicians are utilizing beauty influencers to increase their reach across different demographics and persuade younger US citizens to vote. Bring us your beautiful face and incorporate a political message, and no beauty influencer is set without product placement.

## BIG Energy:

The energy you give is the energy you receive. If you like something you see that you love, don't be afraid to stand up, clap, make noise, scream and shout!
