Project Design Tools and Resources

1. [HIgh Tech High PBL Design Kit](#)
   a. This site includes brief descriptions and short videos outlining key design considerations for high quality project based learning. Topics include:
      i. Project Launch
      ii. Essential Question
      iii. Ideation
      iv. Critique
      v. Drafting and Revision
      vi. Exhibition
      vii. Reflection
      viii. Assessment
2. Models of Excellence: [Documenting Projects Toolkit](#)
   a. Six short, informative videos that break down the documentation process
      i. Creating Partnerships
      ii. Identifying What To Do And Making A Plan
      iii. Creating A Student Documentary Crew
      iv. An Overview of Tools
      v. Shooting Photographs and Video
      vi. Video Considerations
         1. A tutorial on Adobe Spark, a free, easy platform you can use to feature your student work
         2. Models of projects documented in Adobe Spark created by students and teachers in 2018.
3. Share Your Learning; http://www.shareyourlearning.org/
   a. Become part of a national movement to transform schools into places where students can communicate, collaborate and contribute. Communicate with the SYL Team and receive emails that are tailored to your needs.

   b. "When students share their learning with an authentic audience we provide them with an opportunity to share their story, reflect on their growth, and engage in real dialogue with others about their learning and their futures. We ensure that they are known. We communicate that their work has value. We bring together schools and communities."
