Abstract: This document provides the instructions for preparing papers for International Journal of Biosystem Research (IJBR). Use this document as a template if you are using Microsoft *Word*. Otherwise, use this document as an instruction set. Paper titles should be written in uppercase and lowercase letters, not all uppercase. Full names of authors are required in the author field. The Abstract is one-paragraph short paper. Define all symbols used in the abstract. Do not cite references in the abstract. The Abstract consists of no more than 300 words.

Keywords: xxx; xxxxx; xxxxx (no more than 5 terms)

Introduction

The first section of the paper is usually an introduction section, in which the background, the topic and aims are described. The main results and principal conclusions should be highlighted in this section.

Method

Please use the styles and formats defined in this manuscript for titles, texts, figures and table. Specific examples are as follows.

Subsection

Sub subsection

Figures and Tables

Figures, schemes, and charts, along with their captions, should be placed in the text where they are first mentioned and numbered consecutively with Arabic numbers. In addition, the figure caption should be placed below the picture.

Figure 1. If there are multiple panels, please give a detailed description: (a) Description of what is contained in the first panel; (b) Description of what is contained in the second panel. A caption on a single line should be centered. Reproduced with permission.[Ref.] Copyright Year, Publisher.

((Permission statement required for all figures reproduced or adapted from previously published articles/sources. CC-BY content can be used without asking permission, but the source must be attributed: Reproduced under terms of the CC-BY license.[ref] Copyright

Year, The Authors, published by [Publisher]. However, permission must be obtained for reproduction of content published under CC-BY-NC/ND/SA license; delete if not applicable.))

Table 1. Tables should be placed in the main text near to the first time they are cited.

Title 1	Title 2	Title 3
entry 1	data	data
entry 2	data	data ^a

^a Tables may have a footer.

Formatting of Mathematical Components

The authors are encouraged to use either the Microsoft Equation Editor or the *MathType* add-on (<http://www.mathtype.com>) for equations. This is an example of an equation:

$$Ax = b \quad (1)$$

Results and Discussions

Please write down the results and discussion according to your research findings.

Conclusion

Conclusion is not merely a summary of your points or a re-statement of your research problem but a synthesis of key points, they provide clarity and insight into the topic.

ACKNOWLEDGMENTS

Generally, the last paragraph of the paper is the place to acknowledge people, organizations, and financing (you may state grant numbers and sponsors here).

References

References should only include references cited in the text. The references should be written according to APA standards. The format is as follows:
