

Moonlighter Commitment

Understanding that without prior knowledge emergent and non-emergent situations may arise in everyone's lives. We do ask that no one request a shift simply to ensure that you have one in place.

These shifts are advertised because they **need** to be filled. Once we receive your request, it's a commitment from you that your work and/or personal schedules are cleared for you to fulfill what **you** have requested.

1. If you are not certain whether or not you will be able to meet your moonlighting obligation, please re-think requesting a shift.
2. If you do request a shift and cannot work on that night (*due to work and/or personal issues*), **YOU** are responsible for finding replacement coverage for your shift. If you cannot find coverage, then **YOU** are responsible for covering that moonlighting shift.
3. Repeated cancellations (*except if you find your own coverage*) will result in being "locked-out" from moonlighting shift opportunities in the future.
