

How to Join Zoints

Zoints is a social and community network that utilizes the Solana blockchain to enable “Patronage 2.0” where Creators, Communities, AND Fans can earn recurring subscription rewards via a novel split staking mechanism. In other words, it’s in your best interest to create quality content so others subscribe to you and for you to “Subscribe” to other users and communities as you earn more crypto as well.

1. Go to zoints.com
2. Click on “Register” at the top right and enter your details and the invite code you were provided.
3. After you register, go to <https://phantom.app> and create a Phantom cryptocurrency wallet.
4. Go back to Zoints and click on the “Connect” button at the top right (you may need to refresh) and link your wallet.
5. You should now have free \$ZEE, our cryptocurrency. Yay!

How to create your own /z/community

/u/CreatorSpaces are specific to you whereas /z/communities are intended to be on a specific topic. Anyone can follow your community for free, but if people subscribe, then you split the staking rewards and earn more crypto. It’s a good way to make a lot of \$ZEE.

- A. Go to the “Communities” dropdown at the top and then “Create a Community”
- B. Follow the on-screen directions which will create the community.
- C. Use the “Manage Community” dropdown menu to customize your community.
- D. You want to create a couple “channels” in your community. Example:
<https://zoints.com/z/cryptocurrency> but not too many yet as Zoints is new.
- E. “Zap” is like Twitter. What you post there notifies all your Followers and Subscribers. Use it, but also don’t annoy your users. Find a happy medium :)

If you have friends you want to invite to your community, please let us know.
