

2024-2025 Supermileage

Supermileage is a competition to provide students in grades 10-12 with the challenge to design, fabricate, and test the most fuel efficient vehicle. The competition is held at the Brainerd International Raceway in an effort to increase support and student involvement, promote Technology Education, and build public awareness in the area of fuel economy. Competing students and clubs will be challenged to build a one person, fuel efficient vehicle powered by a single cylinder, four stroke engine.
